You are invited to take part in a pilot test of a new CERT Instructor pandemic flu module. This module is being developed by Contra Costa Health Services for the California Department of Public Health for use by CERT teams statewide.

Module Objectives

- Explain what pandemic influenza is and how it is transmitted
- Describe local government plans for responding to a pandemic.
- Describe at least four ways to reduce transmission of the disease.
- Describe at least four roles of CERT teams to be prepared to help their communities with basic needs before, during and after a severe influenza pandemic.
